DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Jeremy Laabs on 3/17/2011.
3. The application has been amended as follows:

In claim 1, line 19: - - said catheter tip and said catheter shaft defining discrete structures, - - has been added after "central shaft portion," and before "said catheter tip".

In claim 16, line 11: - - said catheter tip and said catheter shaft defining discrete structures, - - has been added after "second region;" and before "said catheter tip".

Allowable Subject Matter

4. Claims 1-26 and 58-60 are allowed.
5. The following is an examiner's statement of reasons for allowance:
6. Regarding claim 1, the prior art does not disclose or suggest, either alone or in combination, the catheter comprising a catheter shaft, balloon, and catheter tip having the claimed structures (such as the recesses in the tip) where the catheter tip and catheter shaft define discrete structures and the tip proximal end is attached to the shaft distal end.

7. Regarding claim 16, the prior art does not disclose or suggested, either alone or in combination, the catheter comprising a catheter shaft, balloon, and catheter tip having the claimed structures (such as the recess and the stiffening fibers in the tip) where the catheter tip and catheter shaft define discrete structures and the tip proximal end is attached to the shaft distal end. This coupling location is located proximal to the inflation balloon.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Oath/Declaration

9. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

10. The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be "material to patentability as defined in 37 CFR 1.56."

INCORRECT STATEMENT: "I acknowledge the duty to disclose information which is **material to the examination** of this application in accordance with Title 37, Code of Federal Regulations Section 1.56"

CORRECT STATEMENT should read "I acknowledge the duty to disclose information which is **material to patentability** of this application in accordance with Title 37, Code of Federal Regulations Section 1.56."

11. Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth in this communication. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.
